Hi again Oleg,

I'm just following up to report that we've made some changes to the encoding for that field and characters like ツ will work now.

Let me know how you get on and don't hesitate to ask if you have any questions!

Best regards,
Steve

I am devloper! 🤓

My +/- goal since ~10 years

Set up community platforms that bring people together around open data topics, provide exposure to outstanding projects, and critical evaluation to code & data sources.

🌻

The mission of the Open Knowledge Foundation is to create a more open world.

“Wissen ist **offen**, wenn jedeR darauf frei zugreifen, es nutzen, verändern und teilen kann – eingeschränkt höchstens durch Massnahmen, die **Ursprung und Offenheit** des Wissens bewahren.”

opendefinition.org (https://opendefinition.org)

The Open Definition

The **Open Definition** sets out principles that define "openness" in relation to **data and content**.

It makes **precise** the meaning of "open" in the terms **"open data"** and **"open content"** and thereby ensures **quality** and encourages **compatibility** between different pools of open material.

It can be summed up in the statement that:

> *"Open means **anyone** can **freely access, use, modify, and share** for **any purpose** (subject, at most, to requirements that preserve provenance and openness)."*

Put most succinctly:

> *"Open data and content can be **freely used, modified, and shared** by **anyone** for **any purpose**"*

THE OPEN DEFINITION IN YOUR LANGUAGE

العربية | Беларуская | Български | Català | Czech | Dansk | Deutsch | Eesti | Ελληνικά | English | Español | Euskara | Suomi | Français | Galego | עברית | हिन्दी | Croatian | Magyar | Indonesian | Íslenska | Italiano | 日本語 | ಕನ್ನಡ | 한국어 | македонски јазик | नेपाली | Norsk (bokmål) | Polszczyzna | Português Brasileiro | Português | Русский | Shqip | Српски | Svenska | తెలుగు | Türkçe | Українська | 简体中文 | 繁體中文
